

Deliver secure, flexible, convenient exams

to your students with PSI's online proctoring solution

The PSI Bridge™ platform provides superior online proctoring – from customizable test security, identity authentication and multi-modal delivery, to custom reports and analytics. PSI Bridge works seamlessly with any Learning Management System (LMS) and supports every phase of assessment – from creation to results review.

Online Proctoring with PSI Bridge

Anytime-Anywhere Assessment

Proctor your students with PSI Bridge, the flexible testing platform that is highly secure, easily accessible and integrates with any Learning Management System via LTI with support for any online 3rd party testing platform. Whether students are in their homes, workplace or studying abroad, you can quickly deploy a seamless test-taking experience using the modality of your choice – Live Online Proctoring or Record and Review.

Customize Your Program

PSI takes a holistic and collaborative approach to testing, taking into consideration your specific course requirements and empowering you with the ability to customize the level of security you need. PSI Bridge lets you design the business rules for how you want PSI to respond to various types of exam violations using the platform's intelligent incident response system.

Ensure Privacy & Security

Similar to single sign-on (SSO), LTI integration allows you to securely manage access to exams while giving students and faculty a simple and convenient way to login. PSI Bridge is minimally invasive, and does not use remote access, so your content, systems and student privacy are always protected.

- ✓ Students login via a secure lockdown browser
- ✓ Proctors can never access the student's device or personal information
- ✓ Students are thoroughly authenticated prior to sitting their exam

**Seamless.
Scalable.
Secure.**

Key Features

Live Online Proctoring

Combines professional proctors and technology to monitor students live while they complete exam.

Record and Review

Automated student experience, with all aspects of exam session recorded for later review by professional proctor.

LMS Integration

Secure integration to LMS and access to exam via LTI.

Reports and Analytics

Access to reporting on exam volumes, exam violation reports.

Customizable Business Rules

Design and scale security levels for your course's specific requirements or exceptions.
